

Jaba Alignment Exercise

- Task
 - Run the alignment from step **b** of ex. 25 using the JABA clustalW service
 1. Run with default settings
 2. Use the ‘Edit parameters’ dialog to run an alignment with the following:
 - Gap opening (internal and end gaps) = 3
 - Gap Extension = 0.05
 - Compare the two alignments. You may want to save them for later, too.
- Questions
 - What effect has modifying the gap penalties had on the feredoxin alignment ?
